BIOCHIMICA ET BIOPHYSICA ACTA
BBA

Author Index

Ayala, I., see Kim, S. (1364) 337

Baltscheffsky, M., Nadanaciva, S. and Schultz, A.
A pyrophosphate synthase gene: molecular cloning and sequencing of the cDNA encoding the inorganic pyrophosphate synthase from *Rhodospirillum rubrum* (1364) 301
Bandilla, M., Ücker, B., Ram, M., Simonin, I., Gelhaye, E., McDermott, G., Cogdell, R.J. and Scheer, H.
Reconstitution of the B800 bacteriochlorophylls in the peripheral light harvesting complex B800–850 of *Rhodobacter sphaeroides* 2.4.1 with BChl *a* and modified (bacterio-)chlorophylls (1364) 390
Barry, B.A., see Kim, S. (1364) 337
Becucci, L., see Moncelli, M.R. (1364) 373
Berthold, D.A.
Isolation of mutants of the *Arabidopsis thaliana* alternative oxidase (ubiquinol:oxygen oxidoreductase) resistant to salicylhydroxamic acid (1364) 73
Brennicke, A., see Rasmusson, A.G. (1364) 101
Brzezinski, P., see Karpefors, M. (1364) 385

Cain, A.J., see O'Connor, H.E. (1364) 63
Chevallet, M., see Dupuis, A. (1364) 147
Cogdell, R.J., see Bandilla, M. (1364) 390

Daldal, F., see Dutton, P.L. (1364) 245
Darrouzet, E., see Dupuis, A. (1364) 147
Davidson, V.L., see Zhu, Z. (1364) 297
Deak, Z., see O'Connor, H.E. (1364) 63
Degli Esposti, M.
Inhibitors of NADH–ubiquinone reductase: an overview (1364) 222
Di Bernardo, S., see Yagi, T. (1364) 125
Duborjal, H., see Dupuis, A. (1364) 147
Dupuis, A., Chevallet, M., Darrouzet, E., Duborjal, H., Lunardi, J. and Issartel, J.P.
The Complex I from *Rhodobacter capsulatus* (1364) 147
Dutton, P.L., Moser, C.C., Sled, V.D., Daldal, F. and Ohnishi, T.
A reductant-induced oxidation mechanism for Complex I (1364) 245

Finel, M.
Organization and evolution of structural elements within complex I (1364) 112
Fleischman, D. and Kramer, D.
Photosynthetic rhizobia (1364) 17
Friedrich, T.
The NADH:ubiquinone oxidoreductase (complex I) from *Escherichia coli* (1364) 134

Gelhaye, E., see Bandilla, M. (1364) 390
Gonzalez, E.T., see Kim, S. (1364) 337
Gorokhov, V.V., see Paschenko, V.Z. (1364) 361
Goryacheva, E.A., see Paschenko, V.Z. (1364) 361
Grishanova, N.P., see Paschenko, V.Z. (1364) 361
Grohmann, L., see Rasmusson, A.G. (1364) 101
Guidelli, R., see Moncelli, M.R. (1364) 373

Heiser, V., see Rasmusson, A.G. (1364) 101
Herrero, R., see Moncelli, M.R. (1364) 373
Hunter, D.J.B., Salerno, J.C. and Ingledew, W.J.
Angular dependence of electron paramagnetic resonances of an azide–NO complex of cytochrome *c* oxidase: orientation of the haem–copper axis in cytochrome *aa*$_3$ from ox heart (1364) 55

Ingledew, W.J., see Hunter, D.J.B. (1364) 55
Issartel, J.P., see Dupuis, A. (1364) 147

Jegerschöld, C., see Krieger, A. (1364) 46
Jüttner, F., see Srivastava, A. (1364) 326

Karpefors, M., Wilson, M.T. and Brzezinski, P.
Photoinduced electron transfer from carboxymethylated cytochrome *c* to plastocyanin (1364) 385
Kim, S., Ayala, I., Steenhuis, J.J., Gonzalez, E.T. and Barry, B.A.
Infrared spectroscopic identification of the C–O stretching vibration associated with the tyrosyl Z$^{\bullet}$ and D$^{\bullet}$ radicals in photosystem II (1364) 337
Knox, P.P., see Paschenko, V.Z. (1364) 361
Korvatovsky, B.N., see Paschenko, V.Z. (1364) 361
Kramer, D., see Fleischman, D. (1364) 17
Krieger, A., Rutherford, A.W. and Jegerschöld, C.
Thermoluminescence measurements on chloride-depleted and calcium-depleted photosystem II (1364) 46

Lenaz, G.
Quinone specificity of Complex I (1364) 207
Lümmen, P.
Complex I inhibitors as insecticides and acaricides (1364) 287
Lunardi, J., see Dupuis, A. (1364) 147
Lyon, M.K.
Multiple crystal types reveal photosystem II to be a dimer (1364) 403

Maier, R.J., see Surpin, M.A. (1364) 37
Matsuno-Yagi, A., see Yagi, T. (1364) 125
McDermott, G., see Bandilla, M. (1364) 390
Mishonova-Alexova, E.I., see Tzoneva, R.D. (1364) 420
Miyoshi, H.
Structure–activity relationships of some complex I inhibitors (1364) 236
Moncelli, M.R., Herrero, R., Becucci, L. and Guidelli, R.
Kinetics of electron and proton transfer to ubiquinone-10 and from ubiquinol-10 in a self-assembled phosphatidylcholine monolayer (1364) 373
Moser, C.C., see Dutton, P.L. (1364) 245

Nadanaciva, S., see Baltscheffsky, M. (1364) 301
Nugent, J.H.A., see O'Connor, H.E. (1364) 63

O'Connor, H.E., Ruffle, S.V., Cain, A.J., Deak, Z., Vass, I., Nugent, J.H.A. and Purton, S.
The 9-kDa phosphoprotein of photosystem. II. Generation and characterisation of *Chlamydomonas* mutants lacking PSII-H and a site-directed mutant lacking the phosphorylation site (1364) 63
Ohnishi, T.
Iron–sulfur clusters/semiquinones in Complex I (1364) 186
Ohnishi, T., see Dutton, P.L. (1364) 245

Paschenko, V.Z., Gorokhov, V.V., Grishanova, N.P., Goryacheva, E.A., Korvatovsky, B.N., Knox, P.P., Zakharova, N.I. and Rubin, A.B.
The influence of structural-dynamic organization of RC from purple bacterium *Rhodobacter sphaeroides* on picosecond stages of photoinduced reactions (1364) 361
Pinheiro de Carvalho, M.Â.A., see Popova, T.N. (1364) 307
Popova, T.N. and Pinheiro de Carvalho, M.Â.A.
Citrate and isocitrate in plant metabolism (1364) 307
Purton, S., see O'Connor, H.E. (1364) 63

Ram, M., see Bandilla, M. (1364) 390
Rasmusson, A.G., Heiser, V., Zabaleta, E., Brennicke, A. and Grohmann, L.
Physiological, biochemical and molecular aspects of mitochondrial complex I in plants (1364) 101
Robinson, B.H.
Human Complex I deficiency: Clinical spectrum and involvement of oxygen free radicals in the pathogenicity of the defect (1364) 271
Rottenberg, H.
The generation of proton electrochemical potential gradient by cytochrome *c* oxidase (1364) 1
Rubin, A.B., see Paschenko, V.Z. (1364) 361
Ruffle, S.V., see O'Connor, H.E. (1364) 63
Rutherford, A.W., see Krieger, A. (1364) 46

Salerno, J.C., see Hunter, D.J.B. (1364) 55
Schapira, A.H.V.
Human complex I defects in neurodegenerative diseases (1364) 261
Scheer, H., see Bandilla, M. (1364) 390
Schultz, A., see Baltscheffsky, M. (1364) 301
Simonin, I., see Bandilla, M. (1364) 390
Sled, V.D., see Dutton, P.L. (1364) 245
Srivastava, A., Jüttner, F. and Strasser, R.J.
Action of the allelochemical, fischerellin A, on photosystem II (1364) 326
Steenhuis, J.J., see Kim, S. (1364) 337
Strasser, R.J., see Srivastava, A. (1364) 326
Surpin, M.A. and Maier, R.J.
Roles of the *Bradyrhizobium japonicum* terminal oxidase complexes in microaerobic H_2-dependent growth (1364) 37

Tzoneva, R.D. and Mishonova-Alexova, E.I.
A calorimetric study of pH-dependent thermal unfolding of leghemoglobin a from soybean (1364) 420

Ücker, B., see Bandilla, M. (1364) 390

Vass, I., see O'Connor, H.E. (1364) 63
Videira, A.
Complex I from the fungus *Neurospora crassa* (1364) 89
Vinogradov, A.D.
Catalytic properties of the mitochondrial NADH–ubiquinone oxidoreductase (Complex I) and the pseudo-reversible active/inactive enzyme transition (1364) 169

Wilson, M.T., see Karpefors, M. (1364) 385

Yagi, T., Yano, T., Di Bernardo, S. and Matsuno-Yagi, A.
Procaryotic complex I (NDH-1), an overview (1364) 125
Yano, T., see Yagi, T. (1364) 125

Zabaleta, E., see Rasmusson, A.G. (1364) 101
Zakharova, N.I., see Paschenko, V.Z. (1364) 361
Zhu, Z. and Davidson, V.L.
Methylamine dehydrogenase is a light-dependent oxidase (1364) 297
